Children in the University Libraries Policy Statement

Children under the age of 14 must be accompanied by an adult over the age of 18 when visiting the University Libraries. Adults accompanying children are responsible for monitoring their safety and behavior. Children of all ages are expected to behave appropriately for an academic library.

Library personnel may request age verification of any young person, and unaccompanied children under age 14 will be asked to leave. University Police may be asked to contact parents and/or escort children out of the library building. Exceptions may be made for children with appropriate identification who are participating in university-sponsored activities in the Libraries.
